

March 24, 2020

Dear Valued Partners and Clients,

Xtreme Gardening is committed to providing sustainable, nutritional and biological solutions to support plant life across the world. Our commitment to improving plant life cannot be recognized without our clients and we want to thank you for your continued support throughout the years.

The global wide Coronavirus (COVID-19) pandemic has created unforeseeable circumstances that have created widespread concern. During this challenging time, we want to provide our partners and clients with helpful information to alleviate these concerns. As of Tuesday, March 17, 2020, Santa Clara County ordered mandatory closures of all non-essential businesses to help contain the spread of COVID-19. Xtreme Gardening will remain operational as an essential business, supplying products to other essential businesses that are involved in food cultivation.

Xtreme Gardening is taking all precautions necessary to ensure the safety of our employees and continued business partners by following recommended CDC guidelines for businesses and employers. As of March 17, 2020, we have implemented the following CDC guidelines: actively encourage sick employees to stay home; emphasize the need to stay home when sick; perform routine environmental cleaning. In addition to these guidelines, we are working with minimal staff to ensure appropriate 6-foot distancing measures are followed.

Amidst the worldwide COVID-19 pandemic, our dedication in delivering consistent, high quality products remains a priority. Xtreme Gardening is grateful to continue supporting other essential businesses that remain operational and we are confident that enforcing recommended guidelines will allow us to remain operational as well. We thank you for being a valued client and we hope that this challenging pandemic will eventually fade with as little harm as possible. If you have any questions feel free to contact our office at 408-848-9604 or e-mail us at info@reforest.com. Once again, thank you for your continued support and for allowing us to serve you over the years.

Sincerely,

Cristina Najjar
Director of Operations
Xtreme Gardening
